

Educational and methodological work at the Department of "foreign language" is carried out in accordance with the requirements and regulations of "Zhumabek Akhmetovich Tashenev university" LLP. At the same time, the EMP of the department is developed using innovative teaching methods (the principle of modular training, the use of a point-rating system, a competency-based approach, etc.). The development of the educational and methodological manual is aimed at the formation and development of the information culture of students. This involves paying more attention to the development of communicative and cognitive skills.

In total, 97 educational and methodological literature was published at the Department of foreign languages for the 2022-2023 academic year. For the 2023-2024 academic year, 36 educational and methodological literature was planned, of which 34 were implemented. (educational-methodical manual-1, educational-methodical instruction for practical training-15, methodological instruction for CPS-6), 3 monographs, 9 collections of lectures).

In the 2023-2024 academic year, the department planned and fully implemented 55 teaching aids.
